EZ-CARE

Easily fix a carving knife that has lost its sharpness!

A simple sharpening device that uses the sharpening cloth's ability to sharpen knives. By always keeping it on your desk and using it frequently, you can maintain the sharpness of your blade!

Wooden plate

Sharpening cloth

- **Sharpening cloth**
The cloth itself has a polishing function. You can use it as is without any abrasives.

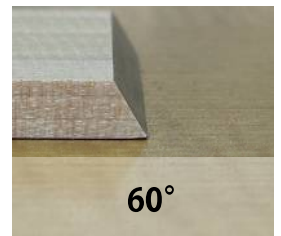

- **Wooden plate**
Convenient shape with 4 sides processed to make it easy to polish the back of U-gouge and V-gouge blades!

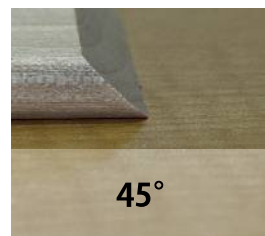

Side shape of wooden plate

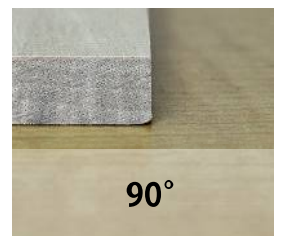

Half circle (R3)

60°

45°

90°

No abrasives are required, and you can use it as is without any preparation.

The back of the U and V-gouge can be polished using the shaped wooden block. The wooden block has four different shapes to fit different tool profiles.

Use it at times like this!

- When you carve wood, there are white streaks or a whitish appearance on the carved surface.
- For finishing sharpening after medium sharpening with a whetstone.
- For maintenance before starting or finishing carving.

Specifications: Sharpening cloth (100×130mm)
Wooden plate (60×98×16mm)
